Introduction

Preface

During the last C.M.A.S. General Assembly held in Sanya (CHN) on November 24th, 2003, C.M.A.S. has adopted the World Anti-doping Code (The Code). These Anti-Doping Rules are adopted and implemented in conformance with C.M.A.S. responsibilities under the *Code*, and are in furtherance of C.M.A.S. continuing efforts to eradicate doping in the sub aquatic sports.

Anti-Doping Rules, like *Competition* rules, are sport rules governing the conditions under which sport is played. *Athletes* accept these rules as a condition of participation. Anti-Doping Rules are not intended to be subject to or limited by the requirements and legal standards applicable to criminal proceedings or employment matters. The policies and minimum standards set forth in the *Code* and implemented in these Anti-Doping Rules represent the consensus of a broad spectrum of stakeholders with an interest in fair sport and should be respected by all courts and adjudicating bodies.

Fundamental Rationale for the Code and IF's Anti-Doping Rules

Anti-doping programs seek to preserve what is intrinsically valuable about sport. This intrinsic value is often referred to as "the spirit of sport"; it is the essence of Olympism; it is how we play true. The spirit of sport is the celebration of the human spirit, body and mind, and is characterized by the following values:

- Ethics, fair play and honesty
- Health
- Excellence in performance
- Character and education
- Fun and joy
- Teamwork
- Dedication and commitment
- Respect for rules and laws
- Respect for self and other participants
- Courage
- Community and solidarity
- Doping is fundamentally contrary to the spirit of sport.

Scope

These Anti-Doping Rules shall apply

- to C.M.A.S.
- to any of its National Federations by virtue of the Participant's membership, accreditation, or participation in C.M.A.S. or NF activities.
- to each sportsman participating in the C.M.A.S. or its NF activities or events.
Any Person who fulfils the requirements to be part of the C.M.A.S. Registered Testing Pool, must become a member of the Person's National Federation, and must make himself or herself available for Testing , at least six months before participating in International Events or events of his/her National Federation
- to all *Doping Controls* over which C.M.A.S and its *NF* have jurisdiction.

C.M.A.S. Licences

In order to participate in C.M.A.S. events, an Athlete must have a C.M.A.S. licence, exclusively issued by CMAS upon request by the National Federation the Athlete belongs to. This C.M.A.S. licence will only be given to the Athletes who will personally sign appendix 1. The licence requests for Athletes who are minors must be signed by the person having parental authority.

Responsibility of the NFs affiliated to C.M.A.S.

It is the responsibility of each *National Federation* to ensure that all national-level *Testing* on the *National Federation's Athletes* complies with these Anti-Doping Rules.

Should the NF delegate the responsibility of the controls to a *National Anti-Doping Organization*.(NAO), reference in these Anti-Doping Rules to the *National Federation* shall apply, as applicable, to the *National Federation's National Anti-Doping Organization*.

I. Object

Art.1 General Aspects

1.1 Interpretation of the Code

The present rules must be interpreted as an independent and autonomous document and not as referring to existing laws or statutes, with the exception of the procedures listed in Article 1.4.

1.2 Appendix 1 : Definition

Appendix 1, included at the end of the Code, is an integral part of the listed rules.

1.3 Said rules cannot be applied retroactively to cases presented before the date the rules come into force

1.4 The Anti-Doping Rules have been adopted according to the applicable provisions of the Code and must be interpreted in coherence with the latter. The comments accompanying several of the Code's provisions may, when necessary, ease the comprehension and interpretation of these rules.

II. Définitions of the Anti-doping Rules Violations

Art.2 Doping Definitions

Doping is defined as one or more violations of the Anti-Doping Rules defined in articles 2.1 to 2.8 as follows.

2.1 Presence of a Prohibited Substance or its Metabolites or Markers in an Athlete's bodily Specimen.

2.1.1 It is each Athlete's personal duty to ensure that no Prohibited Substance enters his or her body. Athletes are responsible for any Prohibited Substance or its Metabolites or Markers found to be present in their bodily Specimens. Accordingly, it is not necessary that intent, fault, negligence or knowing Use on the Athlete's part be demonstrated in order to establish an anti-doping violation.

2.1.2 Excepting those substances for which a quantitative reporting threshold is specifically identified in the Prohibited List, the detected presence of any quantity of a Prohibited Substance or its Metabolites or Markers in an Athlete's Sample shall constitute an anti-doping rule violation

2.1.3 As an exception to the general rule of Article 2.1, the Prohibited List may establish special criteria for the evaluation of Prohibited Substances that can also be produced endogenously

2.2 Use or Attempted Use of a Prohibited Substance or a Prohibited Method.

2.2.1 The success or failure of the Use of a Prohibited Substance or Prohibited Method is not material. It is sufficient that the Prohibited Substance or Prohibited Method was Used or Attempted to be Used for an anti-doping rule violation to be committed.

2.3 Refusing, or failing without compelling justification, to submit to Sample collection after notification as authorized in these Anti-Doping Rules or otherwise evading Sample collection.

2.4 Violation of the requirements regarding Athlete availability for Out-of-Competition Testing including failure to provide required whereabouts information set forth in Article 5.5 (Athlete whereabouts requirements).

2.5 Tampering, or Attempting to tamper, with any part of Doping Control.

2.6 Possession of Prohibited Substances and Methods.

2.6.1 Possession by an Athlete at any time or place of a substance that is prohibited in Out-of-Competition Testing or a Prohibited Method unless the Athlete establishes that the Possession is pursuant to a therapeutic use exemption granted in accordance with Article 4.4 (Therapeutic Use) or other acceptable justification.

2.6.2 Possession of a Prohibited Substance that is prohibited in Out-of-Competition Testing or a Prohibited Method by Athlete Support Personnel in connection with an Athlete, Event or training, unless the Athlete Support Personnel establishes that the Possession is pursuant to a therapeutic use exemption granted to an Athlete in accordance with Article 4.4 (Therapeutic Use) or other acceptable justification.

2.7 Trafficking in any Prohibited Substance or Prohibited Method.

2.8 Administration or Attempted administration of a Prohibited Substance or Prohibited Method to any Athlete, or assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an anti-doping rule violation or any

III. PROOF OF DOPING

Art.3 Burdens and Standards of Proof

C.M.A.S. and its National Federations shall have the burden of establishing that an anti-doping rule violation has occurred. The standard of proof shall be whether IF or its National Federation has established an anti-doping rule violation to the comfortable satisfaction of the hearing body bearing in mind the seriousness of the allegation which is made. This standard of proof in all cases is greater than a mere balance of probability but less than proof beyond a reasonable doubt. Where these Rules place the burden of proof upon the Athlete or other Person alleged to have committed an anti-doping rule violation to rebut a presumption or establish specified facts or circumstances, the standard of proof shall be by a balance of probability.

Art.4 Methods of Establishing Facts and Presumptions

Facts related to anti-doping rule violations may be established by any reliable means, including admissions. The following rules of proof shall be applicable in doping cases

4.1 WADA-accredited laboratories are presumed to have conducted Sample analysis and custodial procedures in accordance with the International Standard for laboratory analysis. The Athlete may rebut this presumption by establishing that a departure from the International Standard occurred.

If the Athlete rebuts the preceding presumption by showing that a departure from the International Standard occurred, then IF or its National Federation shall have the burden to establish that such departure did not cause the Adverse Analytical Finding.

4.2 Departures from the International Standard for Testing which did not cause an Adverse Analytical Finding or other anti-doping rule violation shall not invalidate such results. If the Athlete establishes that departures from the International Standard occurred during Testing then IF or its National Federation shall have the burden to establish that such departures did not cause the Adverse Analytical Finding or the factual basis for the anti-doping rule violation.

IV. THE PROHIBITED LIST

Art.5 Adoption of the prohibited list

C.M.A.S. adopts the prohibited list as defined by WADA but, upon request by its Antidoping Control Commission (ACC), may ask for its extension based on the specific nature of its sports disciplines, but without eliminating anything.
C.M.A.S. will make the adopted prohibited list available to all NFs and they will have to verify that said list is available to all their members

Art.6 Publication, updating and application of modifications

- 6.1 In case of modifications in the list of prohibited substances drafted by WADA, these will be automatically valid, with no further formalities, three months after their publication on the WADA website, unless there is a specific provision by WADA in case of modification of the list.
- 6.2 WADA's decision to include prohibited substances and methods is final and cannot be the object of an appeal by an Athlete or any other subject.

Art.7 Therapeutic use exemption (TUE)

- 7.1 These exemptions concern the Athletes
 - a. of international level
 - b. registered in an international eventwho for therapeutic reasons based on a well documented medical dossier, have to use prohibited substances.
- 7.2 Even if the athlete has obtained a TUE on national level, he must obtain a TUE from C.M.A.S. before his participation to any international event.
- 7.3 The NFs must communicate to C.M.A.S. and as soon as possible, the list of their athletes who has received a TUE on national level.
- 7.4 The C.M.A.S. TUE requests have to be done on the ad hoc form and submitted to the agreement of the TUE Commission (TUEC)
This request must reach C.M.A.S. no later than 21 days before their participation in an international event.
- 7.5 In case of refusal by the above mentioned commission, the Athlete may appeal to WADA.
- 7.6 In case of need, Athletes included in the Out-of-Competition control list will have to present their TUE request together with the information they must provide concerning their whereabouts no later than 21 days before their participation in an international event
- 7.7 WADA may overturn a decision if it feels the granting or refusal of a TUE is not in conformity with the standards.
