

3 Snorkel Questions

If it is impractical to update a candidate with a practical assessment and you are confident of candidates water ability. You may use the below questions. This should only occur on a one-time basis. Candidates should be assessed by another qualified coach or be endorsed by their employment.

1. How do we remove our weight belts, right hand release or left hand release?
2. Why do we do a buoyancy check on our students?
3. If our '*beginner*' snorkeling students where floating upright in the water at what level should they float? Chin out of water, nose out of water, top of head out of water?
